Position overview:

The Data Project team is a part of the Data Operations and Technology (DOT) organization. The project team focuses on data, model and infrastructural projects in which the scale of the development effort and its impact are pointing beneath the regular enhancements and fixes.

Responsibilities:

- Support analysts work with processing and understanding technical/methodology documentation
- Being involved with internal tool development, data visualization, automatic report generation
- Create specification and cooperate with IT on minor enhancements in our data processing
- Work in a fast-paced, deadline-driven environment
- Assist senior management with regular and ad-hoc reporting on client requests, status reports
- Work closely with our data vendors and vendor management
- Ad hoc projects as required

Desired experience and qualifications:

- Fluency in English
- Demonstrated strong interest in capital markets, risk management, data management
- Basic understanding of SQL
- Ability to work flexible hours
- VB, Linux knowledge is a plus
- No experience is required for internship. Any kind of involvement with IT, or capital markets is a plus
- The ideal candidate is a university student

Due to the great number of applications we receive for each of our open vacancies, we are unable to respond on an individual basis.

To all recruitment agencies: MSCI does not accept unsolicited CVs/Resumes. Please do not forward CVs/Resumes to any MSCI employee, location or website. MSCI is not responsible for any fees related to unsolicited CVs/Resumes.
