Technical details:

We ask every interested learners to come to the exam venue in the due time based on the above agenda.

It is important that everybody dress appropriately for the occasion!!

Don't forget to cover your face with face mask in regular way if it necessary.

Alcoholic hand sanitizer fluid will be available either on the corridor or in the classroom.

According to the preliminary plan, the rigorosum exam committee will consist of several members of the Edutus University educational staff.

After entering into the classroom, please make greeting to the committee members and provide about your identification (tell your name and show either your passport or any other ID document).

Go to the Exam Committee front table and make your choice among the thesis, which you can find on the table. (The number of rigorosum thesis are 20).

After selecting your thesis, please tell the Exam Committee the number of your question, take place in the classroom anywhere at your convenience meanwhile keeping safe distance from everybody (minimum 1.5 or 2 meter).

You have 15 minutes for preparation. (Make relevant notes and bullet points about the main focal points related to your issue)

After arrival and identification of the next learner, he or she also select one thesis and take another place far enough away from you. At the same time, you have to finish your preliminary preparation and go back to the exam committee and take seat in front of them and start answering your question.

During your oral answer, the other learner is elaborating his or her thesis.

Based on the exam regulation, at least another learner has also to be present in the classroom beside the exam committee members during your oral exam (as eye witness).

After delivering your answer, the members of the Exam Committee can take comments, remarks and additional supplementary questions gaining clear landscape about your knowledge, and skills.

At the end of your exam, you have to leave the classroom immediately.

You will be informed about the final result of your rigorosum via Neptun system.

We wish you successful preparation and exam!
